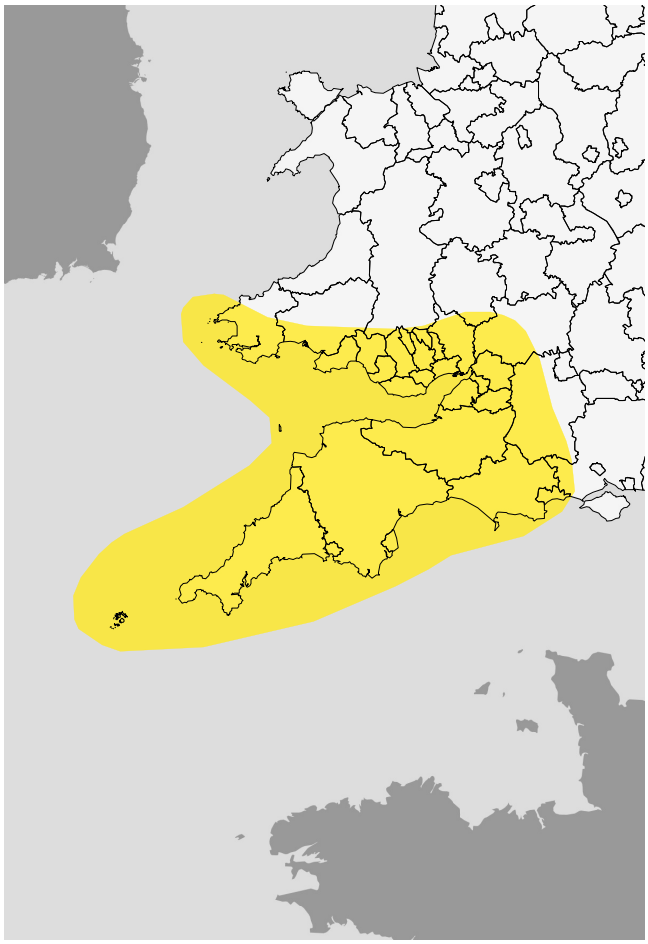
Yellow warning
Fog

Between
05:00 Wed 2 Mar 2022 and
11:00 Wed 2 Mar 2022



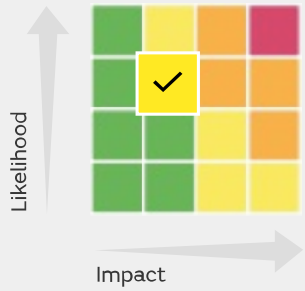
Thick fog, mainly on modest hills and near the south coast, will make for difficult driving conditions this morning.

What to expect

- Difficult, and in places dangerous driving conditions with journeys taking longer than usual.
- There is a chance of delays to flights.

Further details

Very moist air, associated with a frontal system slowly moving northwards, is arriving into south-western parts of the UK. As cloud above it thins, and rain eases, this will allow a period of thick low cloud and fog to continue to develop, settle onto hills, and expand northwards with visibilities below 50 m in a few places. Fog should gradually lift into low cloud this morning, with visibility slowly improving.



Medium likelihood of low impacts

Issued at 03:47 Wed 2 Mar, 2022
